FULL STACK ENGINEER

Dynamic full stack engineer, passionate about delivering high-quality applications through the full software development life-cycle, with ability to learn a broad range of skills in order to meet requirements.
Expert in agile software development: ability to convert requirements and major features in Scrum backlog, implement continuous integration and deployment, and quickly release work in an enterprise environment.
Excels at Troubleshooting And Problem solving, including technical and non-technical problems.
Used These Talents to support production environments, debug complex technical bugs, and identify innovative technical solutions.

TECHNICAL SKILLS

React.Js, React Native, Redux, TypeScript, WebPack, Babel, Jest, RESTful APIs, Javascript, JQuery, Node.JS, MongoDB, Unix, HTML, CSS, SASS, XML, SQL, mySQL, FirebaseDB, Microsoft Visual Studio (2008-2022, Code), Adobe CC (Illustrator, Photoshop), Storybook, Scrum/Agile, and more.

PROFESSIONAL EXPERIENCE

RealityCalc

Full Stack Engineer, Contractor   Dec 2021 - May 2022

· Identified web-based user interactions and developed highly responsive user interface components via React concepts.
· Executed full-stack website launch with responsive mobile layout and cross-browser compatibility.
· Accelerated the site's Google ranking to page 1 for multiple keywords
· Coordinated with UX designers to create beautiful, functional and fast interfaces.
· Created modular, responsive templates using modern CSS techniques and JavaScript libraries.

Freelance Work

Full Stack Web Developer   May 2019 - Present

Working as a self-taught web designer and developer taking the initiative to seek out clients needing end-to-end web solutions for their organizations, events, and companies, and delivering projects that frequently exceed expectations. Building web apps and developing experience with new languages, frameworks, and libraries, such as the MERN web stack, cloud deployment, and game development. My portfolio and recent work is maintained at https://samuelwright.dev.

Shelf Tech

Merchandiser   April 2016 - July 2018

· Utilized merchandising strategies to showcase client's brands and products on retail floors.
· Managed retail space through merchandising, stock replenishment, and visual display maintenance.
· Performed new store set ups and rests to match floor plans

EDUCATION

V School   June 2022

Certificate in Full Stack Javascript Web Development
Worked with development teams to contribute to live products, collaborated with designers to ensure designs were efficient and technically sound, and conducted A/B testing to identify bugs and UI improvements.
