SAMUEL WRIGHT

Full-Stack Web Developer

📞 (609) 472-2897 | ✉ swrightdev@gmail.com | 🔗 linkedin.com/in/samuelwrightdev
🌐 samuelwright.dev | ⌗ github.com/sleighs

Full-stack web developer with a proven track record of creating user interfaces, testing, debugging, and optimizing web functionality that improves data retrieval and workflow efficiencies. Demonstrated expertise in modern frameworks, API development, and data visualization. Enthusiastic about leveraging my technical skills to develop high-quality applications in a new role.

WORK EXPERIENCE

Teaching Assistant   **2023 - 2024**
V School, Remote

- Provided frequent and timely instruction in MERN stack web development (MongoDB, Express, React, Node.js), coursework tutoring, and assessment preparation to students enrolled in the full stack web development course.
- Collaborated with other instructors and members of the education staff to implement developmentally suitable lessons for students.
- Reinforced student learning through daily and weekly check-ins, tutoring sessions, and observations.

Front-End Developer (Contractor)   **2023**
Bravo Burrito, Remote

- Constructed dynamic website templates using integrated JavaScript libraries, industry standard CSS practices, and Liquid templating language for the company website.
- Managed front-end customization on Shopify, leveraging HTML, CSS, and JavaScript to build a visually appealing and intuitive user interface for Bravo Burritos' restaurant e-commerce platform.
- Provided technical support addressing backend issues and ensuring the smooth operation of the Shopify platform, resulting in a significant decrease in customer support queries related to website functionality.

Freelance Front-End Developer   **2023**
Blockquiry, Remote

- Developed data visualization and responsive user interface components via D3, React, and Next.js concepts to track cryptocurrency transactions along bitcoin and ethereum blockchains.
- Took new features through the entire lifecycle of analysis, design, coding, testing, implementation, and support.
- Coordinated with the UX designer to create efficient and user-friendly React interfaces.

PROJECTS

ChatPlus for Rumble | Javascript, WebExtensions API
- Created a browser extension that enhanced live stream chat on the Rumble video platform.
- Introduced new features and delivered user-friendly enhancements that improved interaction and engagement within the Rumble community.

Hero Matchups API | Node.Js, MongoDB,
- Developed an API that provides real-time strategic insights for e-sports competitors.
- Used by industry professionals to train new players and improve gameplay strategy
